

Please join us for the
Sussex County Bird Club Annual Dinner

Thursday, April 16, 2026

GUEST SPEAKER: BRADLEY WHITE - club member, educator & naturalist
Program: Birding in the Delaware Water Gap National Recreation Area

The Delaware Water Gap National Recreation Area is the crown jewel of natural areas in our region. It provides valuable habitat for a variety of breeding and wintering birds. Most significantly, it acts as a world-class migratory corridor for warblers and other bird species. A good spring day in the gap can produce over 30 species of warbler alone - a feat claimed by very few birding hotspots in the world! We will explore some of the best birding hotspots the recreation area has to offer and learn about the beautiful and unusual birds that can be found there as residents and migrants.
